

## 2011 ACC General Mountaineering Camp - Update

### Times they are a-Changing

*After over 25 extremely rewarding years of managing the General Mountaineering Camp for the Alpine Club of Canada, I'm passing the baton on and will not be managing this summer's GMC.*

*It was a privilege to take over the running of the GMC camp from my father, Bill who started outfitting for the Club back in the 1940s. During my tenure I've hugely enjoyed my adventures with you all and been honoured to meet so many like-minded folks.*

*Here's wishing you GMC-ers all the very best in your future mountaineering endeavours - stay safe and have fun!*

*Please contact the ACC Office for details on this summer's GMC. You can always check [www.colwest.ca](http://www.colwest.ca) for climbing route details, topographical maps and other mountaineering information.*

*As for me, I have plenty more alpine adventures up my sleeve. Stay tuned and keep checking back for news on future skiing and climbing opportunities.*
